

SUFFRAGETTE INDICTED TODAY

Mrs. Pankhurst Held in Connection With Dynamiting of Lloyd George Home

ACTION WAS TAKEN TODAY IN OLD BAILEY COURT

Believed King George Directly Behind Prosecution of Famous Militant

LONDON, April 1.—The finding of an indictment for conspiring to maliciously destroy property in connection with the dynamiting of Chancellor of the Exchequer Lloyd George's home, was the action taken in Old Bailey court today against Mrs. Emmeline Pankhurst. The trial begins tomorrow.

Mrs. Emmeline Pankhurst is leader of the militant suffragettes and perhaps the best known woman in England. She is charged with inciting to malicious destruction of property, and it is generally accepted that King George himself is behind the prosecution. The Crown's main evidence against her is her own utterances at Cardiff, Wales, the day after the Walton Heath explosion. In her speech, Mrs. Pankhurst declared that she would gladly assume all responsibility for the bomb, and the police of Cardiff, at the behest of Home Secretary McKenna, made a stenographic copy of Mrs. Pankhurst's remarks. The trial that begins tomorrow will mark a crucial point in the battle for the ballot waged by British women. On its outcome depends their right of suffrage. In deciding the fate of Mrs. Pankhurst, the magistrates of Old Bailey indirectly will decide whether the women who blew up Lloyd George's house, burned down the country seat of Lady White, demolished Kew Gardens and smashed innumerable windows, were merely malicious miscreants in the eyes of the law, or were honorable revolutionists fighting for their rights.

RAILROAD OPERATIONS
NEW YORK, April 1.—Erie railroad is doing record March business. Gross revenues for first week of March increased \$82,900, or 8 per cent and for second week gain was \$70,555, or 6 per cent. From July 1 to March 14 total gain was \$3,784,000, or 9 2-10 per cent.

RESOLUTION OF OBSCURITY SHELVED

SACRAMENTO, April 1.—It took the senate half an hour today to smother a resolution introduced by Sanford of Ukiah, a Democrat, calling for an investigation of the charges of E. T. Earl, the Los Angeles publisher, against Meyer Lissner. The resolution ironically recited the growth of the Progressive party, declaring "It is vital to the perpetuity of the nation that the new party should present a harmonious, tranquil and united organization," and declared that public welfare demands an immediate investigation of Earl's charges. After argument, the resolution was smothered by a resolution by Thompson that further consideration be indefinitely postponed.

LOS ANGELES COUNTY WANTS ANTI-PRIZE FIGHT BILL PASSED
SACRAMENTO, April 1.—Los Angeles county supervisors, through Los Angeles district attorney, filed a petition with the senate asking the passage of the anti-prize fight bill. The petition was read by Brown of Los Angeles.

Senate Favors More Judges
SACRAMENTO, April 1.—The senate today passed the Gerdes bill giving San Francisco four additional superior judges, the Wright bill giving San Diego one additional judge, and the Larkin bill giving Kern one additional judge.

CONSTITUTION IN WAY OF APPROPRIATION FLOOD VICTIMS
SACRAMENTO, April 1.—The joint legislative committee considering means to aid the middle western flood sufferers found the constitution forbids the proposed hundred thousand dollar appropriation. The committee is delaying a formal report hoping to determine some way to aid the flood sufferers.

Chink and Negro In Race Battle In Los Angeles

LOS ANGELES, April 1.—Meat cleavers, razors and butcher knives wielded by angry Chinese and negroes figured in a race battle in the kitchen of the fashionable Shoreham hotel today. When the battle was stopped by the police, Quong Sing, the chef, had suffered an amputation of the index finger of his right hand and sustained severe cuts on his head, while Albert Johnson, his negro assistant had been stabbed in the back, besides being badly bruised. Six other black, and yellow employees were more or less hurt.

The trouble started when Quong issued an order not to Johnson's liking. Johnson attacked Quong with a knife and razor. Then there appeared a dozen negroes and Chinese joining in the battle, whereupon the guests in the dining room fled panic stricken to the street.

PHOENIX, Ariz., April 1.—The lower house of the Arizona legislature killed today the Senate bill by which doctors, dentists and oculists, suffering from tuberculosis, would have been refused certificates permitting them to practice in this state.

EQUALIZERS OF MORGAN'S BODY TAXES VISIT IN THE ROYAL SUITE

State Commissioners Consult With County Assessor James Sleeper

SANTA FE PROPAGATING PLANT LOCALLY EXEMPT

Report That All Corporations Escape Local Taxes Is Promptly Denied

Two members of the State Board of Equalization of Taxes visited this city yesterday afternoon and held consultation with County Assessor James Sleeper relative to the assessment work in general and the assessment of the propagation plant of the Santa Fe Railroad Company here in particular. The visitors were Jeff McElvaine of Los Angeles but formerly a resident of San Bernardino, and J. W. Mitchell, of Oakland.

On the question of assessing the Santa Fe propagating plant there was a difference of opinion. Assessor Sleeper being disposed to regard the plant as non-operative, which would bring it within the taxing jurisdiction of the county. The state commissioners, however, held that the plant is operative, and as an operative adjunct of a public utility corporation, exempt from local taxation, and taxable only by the state. "This removal of the propagating plant from local taxation will mean a reduction of that much in our assessable property, but we will make up the loss in other ways," said Assessor Sleeper this morning. "For instance, the Santa Fe has leased a certain section of land to the wholesale grocery company, and although it is on the company's right-of-way it now becomes assessable as non-operative property."

The work on the new county assessment is progressing satisfactorily. The several field deputies are finding the taxpayers co-operating with them at every turn, and are also finding a total lack of obstructive tactics in any field. The assessor says it is a little early to estimate the probable valuation of Orange county, at this time, but he is satisfied that there will be a substantial increase shown. Asked regarding the right of the city or county to collect a license tax from business corporations, Mr. Sleeper said that the law applies only to public utility corporations, and to no others. He collects taxes from the Standard Oil and kindred companies engaged in retail business in this county.

ALLEGED VICTIM OF MAN'S PASSION KILLS HERSELF

MARSHFIELD, Ore., April 1.—Because her mother reproved her for remaining away from home Saturday night, Irma Knorr, aged 15, shot and killed herself in her parents' home. She was the daughter of R. E. Knorr, a druggist of Gold Beach. The girl is alleged to have confessed that she spent the night with a man. She then went to her own room and fired the shot that ended her life. The man in the case, according to one official, will be arrested.

TONG MAN KILLED BY RIVAL TONGMEN

SAN FRANCISCO, April 1.—Lee Quin Sing, aged 70, a Suesy Sing Tong man, was shot and killed by Bing Tong men while leaving a restaurant this morning. Frank Ghetto, a bystander, was shot through the side. His condition is serious. Lee Yee Lick was arrested, charged with the murder, but his companion escaped.

RATIFIES THE DIRECT ELECTION OF SENATORS
NASHVILLE, Tenn., April 1.—The state Senate has ratified, by a vote of 27 to 3, the federal constitutional amendment for the direct election of United States senators. The House had already ratified the amendment.

STANTON PLACES THE BLAME AT ANAHEIM

Disincorporation Campaign in the Thriving Neighboring City Leads to Criticism of Present Movement

Disincorporation of the city of Stanton is just as improbable as the removal of Laguna Beach to La Habra, according to P. A. Stanton after whom the steadily growing little city has been named. Mr. Stanton declares that the present agitation comes from men who opposed the incorporation of the city in the first place, and asserts that they are aided and abetted by some Anaheim people who have sewer schemes on the brain. "There isn't the slightest probability of disincorporation because the people of Stanton don't want to disincorporate," said Mr. Stanton while in Santa Ana today. "It is also well to remember that it requires a two-thirds vote to bring about such a result, and it is a fact that today a majority of the residents of Stanton are in favor of the present city corporation."

"Our people are not unmindful of the fact that there is grave danger to their health and their property as long as Anaheim is determined to make our territory a dumping ground. Our people cannot be hoodwinked into forgetting that this danger is real, notwithstanding the baseless arguments made by some people that the purpose and object of incorporation has been achieved. While we have accomplished what we wanted, we also realize that Anaheim is still endeavoring to have its way in the matter. Anaheim appealed from the decision of Judge West in the superior court, and Anaheim's appeal is now pending in the superior court."

"City Attorney Ames of Anaheim and some other Anaheim people are behind the present attempt to disincorporate Stanton. Ames is reported to have boasted that he will bring this about. I doubt it. Stanton people realize the true situation. They do not forget that Assemblyman Wessel, who is also an Anaheim man, has introduced three or four bills in the legislature for the purpose of placing Stanton at the mercy of Anaheim. "Stanton is one of the best towns in Southern California. It is enjoying a steady growth in both population and building, and there are many big improvements under way. A good class of homes and business houses are being erected and there is every reason for seeing a large and busy city there within a very short time."

The present movement to bring about the disruption of the municipality is resulting in a lively campaign with friends and neighbors taking sides, according to their light and interest. The advocates of disincorporation profess to believe that they will succeed, but the other side deems their claims.

DR. FRIEDMANN IN DEFENSE OF RIGHT TO PATENT HIS CURE

NEW YORK, April 1.—Dr. Friedrich Franz Friedmann, defending the petition for a patent on his tubercular cure, declares that his right to a patent rests on three discoveries. They are: "First, the method of killing tubercular bacilli with a hammer. Second, that virulent and non-virulent bacilli bred together would produce non-virulent bacilli, the latter in the end completely dominating and annihilating the virulent bacilli. Third, a nachbroden, or medium of culture, which contained only harmless or poisonous substance, a discovery heretofore unknown to bacteriologists. This supplemental explanation was made by Dr. Friedmann in answer to the report of the Berlin examiner of patents, who recommended that a patent be denied."

PENETRATING SEARCHLIGHT
SAN FRANCISCO, April 1.—One of the most penetrating searchlights in the world is now being built for installation on Mt. Tamalpais. It is intended to have this huge lamp flash its rays from the mountain top as a feature of the night illumination of the grounds of the Panama-Pacific exposition.

HELP NORMAL COLLEGE
LANSING, Mich., April 1.—A program providing for five years' running and building expenses of approximately \$1,100,000, is the latest proposal for the State Normal College at Ypsilanti. The plan was evolved by President McKinney of the college, and is finding favor with both house and senate committees.

GETS NEW CHAIR
AMES, Iowa, April 1.—Prof. G. M. Wilson, assistant professor of administration in the teachers' college of Columbia University, has been chosen by Dean C. L. Curtis of the Iowa State College school of agriculture to fill the chair of education at Ames which has been vacant since September, when Prof. A. V. Storm resigned to go to the University of Minnesota.

CONTRACTOR HUBERMAN IS SUED ON A MECHANIC'S LIEN IN LOS ANGELES
Max L. Huberman, who has the contract for paving Bush street from Fifth to Washington, and Spurgeon from Tenth to Washington, has been made defendant in a suit on a mechanic's lien filed in Los Angeles. Huberman began work on Bush street sometime along before Christmas, and a large share of the time since then has been taken up in delays, and the job is not yet completed. Mention of the suit is made in the Los Angeles Times this morning in the following article: "Then Attorney Lloyd L. Miller filed the complaint of Julia Smith against Daniel Donaldson, yesterday, seeking an annulment of marriage, it went on record in the county clerk's office No. 100,000, completing an unbroken series from December 2, 1879. A new series was then begun with Bl. "The ending of the old series and the beginning of the new was marked with more than the usual ceremony of filing complaints. It was handled by Deputies Robertson, Higgins, Adams and Ward with the interest attaching to a historical document. "Compared with the first complaint, a striking contrast was apparent. The original complaint is written on legal paper, and the honor of filing it fell to County Clerk Potts. It was an appeal from a decision of Justice C. N. Humphreys of Santa Ana, at that time a part of Los Angeles county. The litigants were D. H. Collins and Frank Wakeham, and the suit was to replace a mare and a horse. To opposing attorneys were J. D. Bethuns and Scott and Montgomery. "Complaint B1 was filed by Attorney Charles H. Mattingly, for George F. Tommas against Max L. Huberman and others, in the foreclosure of a mechanic's lien."

FLOODS GIVE ALARM TO CITIES

Cairo Levee Reported as Breaking; Militia and Navy Men Work in Guarding Levees

MANY TOWNS THREATENED BY RISING RIVER WATERS

Believed Fight to Hold Back Floods Will Prove to Be Successful

CAIRO, Ill., April 1.—Soldiers are patrolling the levees. Unless there is an unexpected rise it is believed certain the levees will hold. All the men working on the levees above the city were called in today to aid in the work here. The war department has been requested to send three boats of the government fleet here to protect the city in case of an emergency.

With a thousand militiamen and 100 navel reserves aiding the police, every able-bodied man in Cairo is strengthening levees for the crest of the flood. At noon the river registered 53.15 feet. The 54-foot stage is expected before night. Few women and children remain here although it is not believed the danger is serious. Mississippi Rises at Memphis

MEMPHIS, April 1.—The Mississippi river rose to 36 8-10 feet today, rising one foot in 24 hours. All available men are working on the levees. Thousands Marooned at Evansville

EVANSVILLE, Ind., April 1.—All available labor is working at the strengthening of the levees. Thousands of people are marooned by the flood. No fatalities have been reported. Sixty blocks are inundated at New Albany and Jeffersonville is threatened. However, conditions along the Wabash are improved.

TURKEY AGREES TO PEACE PLANS

CONSTANTINOPLE, April 1.—Turkey has formally agreed to an unconditional acceptance of the peace proposals made by the powers. The port's acceptance was officially announced in a note to the diplomats here. The Balkan allies, however, have not yet agreed to the proposals. It is believed their action depends on the decision of Montenegro which is besieging Scutari.

PARIS, April 1.—A Brindisi dispatch to the Excelsior says a provisional government for Albania has been declared with Duc de Montpensier as king.

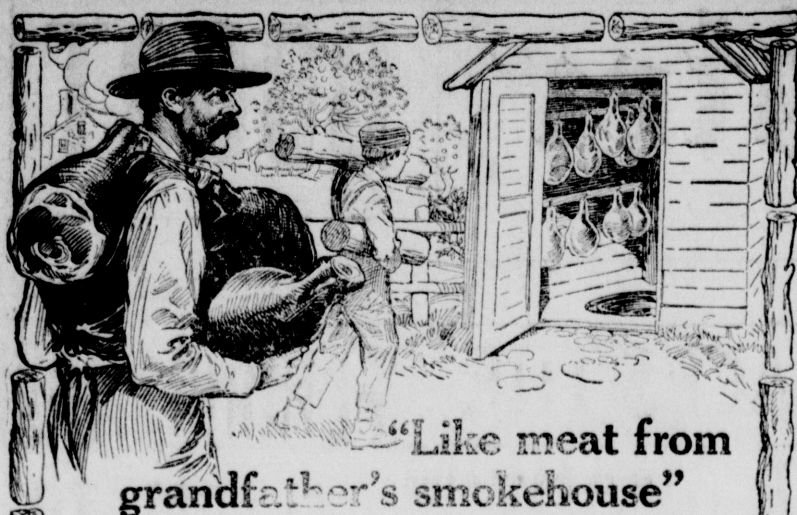

NICHOLAS MAY ABDICATE
THE MO. TENEGRIN THRONE
LONDON, April 1.—A Vienna dispatch to the Daily Telegraph says a report is current that King Nicholas of Montenegro is about to abdicate in favor of Crown Prince Danilo. The recent rumors of the serious illness of King Nicholas arose from the fact that he suffered a fainting spell as a result of excessive cigarette smoking.

FRISCO RED CROSS RAISES \$75,000

SAN FRANCISCO, April 1.—Red Cross officials announce a \$75,000 flood fund here.

Anaheim Contributes
ANAHEIM, April 1.—With the generosity characteristic of her citizens, Anaheim was among the first in the state to respond to the appeal for aid for the tornado and flood sufferers of Nebraska, Ohio and Indiana. Secretary Ailbourn of the local Board of Trade reported that \$250 had been turned in yesterday, and it is expected that twice that amount will be raised. Lists for subscriptions are at the various banks of the city.

DANCING CRAZE DEMORALIZES NEW YORK

Cabarets and Society Mansions
Are Astir All Night With
"Round the Clock" Dance

[By Carlton Ten Eyck]
NEW YORK, April 1.—With the spring all Gotham's fancy has lightly turned to tapers; or in other words, the whole town has gone loony about dancing. It has been coming on all winter but within the past week the craze has reached such a feverish point that it seriously threatens to disrupt business and put half the population in nice, cozy, little padded cells. Everybody's not only doing it, but overdoing it.

Imagine a dance that begins at 4:30 in the afternoon, proceeds merrily without interruption until 7:30; stops for dinner to resume at 10 and lasts until breakfast at 8 o'clock. This is not just one day of the week but every day and night of the seven, Sunday included.

Wild as it sounds, dancing round the clock is now the regular daily program—for thousands of New Yorkers who have nothing to do all day but sleep, and the tri-weekly amusement of other thousands who follow the after-the-ball breakfast with a bear-eyed trip to their downtown offices for a day's work. But for other thousands, including visitors from "the provinces," one of these fifteen-hour balls is enough to last a month.

This taperschorean madness is, by no means confined to the public cabaret restaurants, of which so much has been written lately. It was only last month that Mrs. Anthony J. Drexel, Jr., formerly Marjorie Gould, the beautiful daughter of the George Goulds, gave a dance at the Ritz-Carlton that began at 11 p. m., halted for supper at 2 a. m. and whirled and wiggled onward blithely until an "old-fashioned country breakfast" was announced at 8 o'clock. In fact, none of the smart society dances this winter has ended before 6 or 7 o'clock.

But even the pleasure-maddened young folk of the ultra-fashionable set appear to have some regard for their health and beauty rules. One of the latest night affairs, a week, with plenty of horseshoeing in the park, tennis, racquets, polo or golf as regimens, would seem to satisfy the "elite."

One must visit the dozen or more "dancing restaurants" of the Broadway section to find the taperschorean "bug" in full operation. Here may be seen the same faces, night after night, bobbing and "dipping" around the rectangular dancing space set in the center of the array of tables. Among them are hundreds of girls from the choruses of the Broadway musical shows.

After dancing in restaurants from 4:30 until 6:30, they partake of a hasty dinner, dash taxicabishly to the stage door, change into about ten different costumes during the evening's performance, with a dance in each costume; rush from the theater into the waiting arms of their escorts to be whisked to the nearest cabaret restaurant to continue the mad pace until long after daylight.

No one seems to know how they stand it. Some of the girls complain laughingly of feeling "a little tired" while eating their 8 o'clock breakfasts. But they turn out of bed around 3 in the afternoon, apparently refreshed and invigorated—ready and eager to repeat yesterday's program without a falter. The advent of the "turkey-trot" about a year ago is responsible for the spread of the dancing craze. It is now at fever pitch. It would seem that the recent introduction of the afternoon "tea dance" by the Broadway restaurants is as far as the madness can be carried. The steady patrons of these places are now dancing regularly from one "breakfast" to another.

Every afternoon and night these dance-hall cafes are packed to the doors. It would appear at a glance that the proprietors must be becoming millionaires over night. But closer scrutiny will show that the average party of patrons will sit long over one round of drinks or make one highball cover a multitude of "trots." To meet this difference on the part of the purchasing patrons, the restaurants have put their scale of prices up to figures that make the ordinary chap's weekly bankroll fade like a lily in a boiler room.

Ordinary drinks such as sell at the bars at 15 or 20 cents, are 40 and 50 cents in all these places. Ask for a "gingerale highball" and the check is 60 cents; brandy and soda is 80 cents; a bottle of beer is 35 cents; a pint of wine is \$3.50. The prices of food are correspondingly high, ranging from 75 cents for a club sandwich to \$3.00 for an ordinary sirloin steak.

But true to its motto: "We should worry?" Broadway reckons mere prices as only part of the game. It recognizes that he who dances must pay not only for the fiddler, but for the lights, the rent and the all-night license without which none of these cabaret cafes could afford to permit their patrons to trip the light fantastic fifteen hours out of every twenty-four.

DEVELOP WATER FOR SUGAR BEETS NEAR OCEANSIDE

Wiley Ambrose, formerly a beet grower on the San Joaquin ranch, was here yesterday making arrangements with directors of the South Coast Land Co. for putting water on land leased by Ambrose at Ocean side. Ambrose has a good stand of sugar beets under contract with the Santa Ana Co-operative Sugar Co. The Ocean Side Blade has the following:

"The Fay Lanpher drilling rig is completing a well for the South Coast Land Co. on the former Johnson tract in the valley north of the lane to San Luis Rey. The well is down 155 feet and the drillers are engaged in perforating the casing and preparing the hole for pumping, as a good supply of water has been found. Another well will be drilled near by and the two will be used for water supply for irrigating sugar beets."

S. P. AFTER SHARE OF DE LUXE MONEY

Travelers Occupying Pullman
Drawing Rooms Must Have
2 First-Class Tickets

Los Angeles Tribune: The railroads have come to the belief that they have been making too much money for the Pullman company. They will try to get a large share of the money paid by travelers de luxe hereafter.

Beginning April 5, the Southern Pacific will require passengers occupying drawing rooms on the Golden State Limited to buy two first-class railroad tickets instead of one as at present, also one extra fare ticket and one Pullman ticket as usual. This means that the man or woman who rides in an elegant drawing room with its ample space must pay the railroad for traveling that way to the exclusion of other passengers for whom there would be room if he or she did not require so much space.

Of course, the Pullman company charges an extra price for the drawing room, but the railroad gets the price of but one ticket. Now comes the abrupt change of front. The railroads will not haul a car without making every portion of it pay proportionately. If occupied. The large drawing room must yield the price of two first-class tickets hereafter. The Southern Pacific is the first road to throw down the gauntlet to the Pullman company.

The compartments also must be represented by one and a half tickets, according to the Southern Pacific ruling. The Santa Fe road charges an extra fare of \$25 on its de luxe train.

WHAT NEXT

[By Percy Shaw]

They have robbed the spike-faced cactus
Of thorns it used to wear;
No more the cornucopia up-to-date
Makes tassels of its hair;
No more the prickles sprout with glee
Upon the prickly pear.

The lemon soon will have no seeds;
The pomegranate tart
Has lost its old-time usefulness
To pucker up the heart;
And every kind of fruit that grows
Is labeled "This is art."

Now comes a man who branches out
Far from the beaten track;
He introduces to our midst
The duck without a quack.
And soon we may be riding on
The horse without a back.

The march of science has begun,
We move into the light;
Oh, let us offer prayers for
The dog that cannot bite,
And also for the poet who
Can never, never write.

WHY TUMULTY IS PRESIDENT'S SECRETARY

Battled Against Corruption In
New Jersey—Wilson Calls
Him His "Other Self"

WASHINGTON, D. C., April 1.—Everybody outside New Jersey was surprised when President Wilson named Joseph P. Tumulty to be his private secretary at the White House, but everybody in New Jersey would have been surprised if he had named anybody else.

Jerseyites who had been watching Tumulty know his appointment was a foregone conclusion—for Tumulty, for two years, had been the mainstay, prop, comforter, counselor and captain of the Wilson gubernatorial administration. The kind of a fellow Tumulty is (accent on the first syllable, pronounced as if it were "Tumm") is best shown by what the President himself says of him:

"Tumulty is my other self." For three years before he became governor, Wilson had had his eye on Tumulty, who was elected to the house of assembly for his fourth term when Wilson was elected governor in 1910. Although supposed to be a college "recluse," Wilson had been studying conditions in New Jersey closely. He had seen young Tumulty, who went to the legislature when he was 28, stand on the floor of the house and rave about the corrupt political conditions which he was powerless to remedy but which he never hesitated to condemn. Tumulty had been preaching all the reforms which Wilson later made real as governor, so Wilson grabbed him out of the house and put him to work with the title of secretary and the duties of assistant chief executive and general political campaign manager.

It was Tumulty who got the information that formed the basis for Wilson's reform program in New Jersey. It was Tumulty who stood at Wilson's shoulder with his mouth close to his chief's ear when the presidency business started, and it was Tumulty whom Wilson leaned on more heavily and found absolutely trustworthy and wise when he ran for the Democratic nomination, when he ran for election, when he steered the New Jersey legislature through its last session. That's the reason he brought Tumulty to Washington, to help him through the bigger job at the White House.

Tumulty is a natural born fighter. He is Irish through and through. He loves a scrap, and he eats, drinks and sleeps politics. Being born in a tenement ward in Jersey City, growing up where he had to establish his position by his fists, knowing the grind of poverty—his father was an iron moulder—Tumulty naturally became a Democrat, and later, as he began to form definite ideas of government, he became an extreme radical. He knew the trials, heartaches and discouragements of the man who is down and has nothing to pull him up but his own efforts, because he had to pull himself up. Since he got near the top he has never forgotten how the average or less than average person has to struggle.

That was the reason he fought for political decency and clean government in the house of assembly at Trenton—and for that was made secretary to the president of the United States.

During his two years at Trenton, Tumulty "commuted" between his home in Jersey City and the capital every day, rising at 5:45 to catch an early train and getting home anywhere from 7 to midnight. He wouldn't move because his wife, to whom he was married ten years ago, was comfortably settled with the six little Tumultys—four girls and two boys—in a cozy home that he didn't want to change.

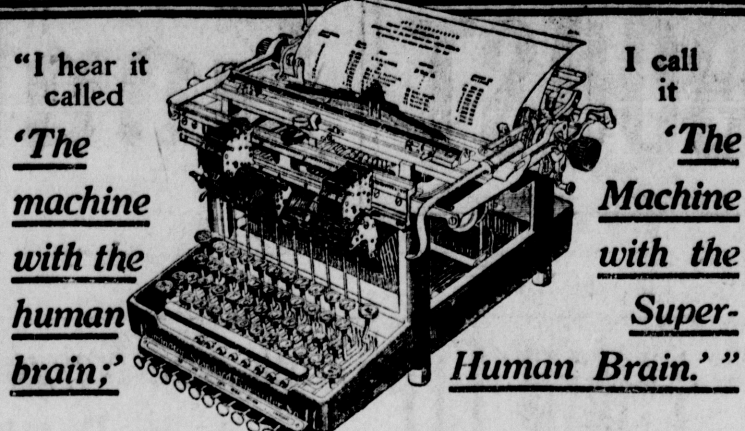

That early rising habit, together with his fondness for hard work, explains why he gets to the White House every morning at 8 o'clock—and throws a double distilled chill into his office staff in particular and official Washington in general.

Tumulty was educated at the Catholic schools of Jersey City and studied law in an office afterwards, working long hours. He had been practicing law five years when he was elected to the legislature, and had been making good rapidly.

In personal appearance, Tumulty is almost beautiful. He is 5 feet 7 1/2 inches high and is rather chubby. His hair is almost golden and his skin is as fair and pink as a woman's. But he is not the least feminine, the reason probably being his strong jaw and his straightforward, penetrating blue eyes. His personality is charming. True to his breed, he is almost effusive in spirits, a great practical joker, a good story teller, warm hearted, generous and of strong emotions.

BREAKS AUTO RECORD
DETROIT, April 1.—Another production record in the automobile industry was shattered last month when the Ford Motor company built and shipped from its factory more than 7,000 cars. This is by far and away the largest number of automobiles ever constructed in one month by any company. It is more cars than the company built during the entire first year of its existence.

FREIGHT CAR MOVEMENT
NEW YORK, April 1.—Fortnightly bulletin of American Railway association states that on March 15 there was a net surplus of idle cars on lines of United States and Canada of 37,775, compared with 31,381 on March 1, an increase of 6,394. Gross surplus of idle cars was 57,998, but shortage decreased from 27,148 to 20,223. In two weeks ended March 15 net shortage of box cars of 1678 was changed to a net surplus of 4981, while net surplus of coal cars decreased from 14,684 to 14,091.

Remington Adding and Subtracting Typewriter

(Wahl Adding Mechanism)

This machine does something that only the brain, directing the hand, has hitherto been able to do—that is, write and add (or subtract) on the same page.

But this is not all. It does such work more easily, more rapidly, and more accurately than the human brain has ever performed similar labor.

Thus the machine is human in what it does and super-human in the way it does it.

Delicious Saratoga Chips made with Cottolene

Saratoga Chips made with Cottolene are never greasy, as are those made with lard. The reason for this is that Cottolene heats to about 100 degrees higher than either butter or lard, without burning, quickly forming a crisp coating which excludes the fat. Your chips, therefore, are crisp, dry and appetizing.

Cottolene costs about the price of lard, and will go one-third farther than either butter or lard.

Cottolene is never sold in bulk—always in air-tight tin pails, which protect it from dirt, dust and odors. It is always uniform and dependable.

REMEMBER THE BIG FLOOD BENEFIT

Everybody Buy Tickets For
Tomorrow's Performance
at the Grand

Do you appreciate the blessings showered upon you in this land of sunshine and flowers? If so, give of your store to your suffering brothers and sisters in the stricken states of our country.

You may not be able to give as much as some of your more fortunate townsmen, but you can buy some tickets to the benefit performance to be given at the Grand Opera House tomorrow afternoon at 2:15. If you can't attend yourself, give the tickets to someone else.

The committee in charge does not ask that you give something for nothing.

Everything has been done to arrange an excellent program, and an afternoon full of enjoyment is promised.

George H. McCormick, character impersonator, and Helen Drew, the incomparable comedienne with the booby Hazel Company, in "The Property Boy," will be the Bell's donation, together with two reels of pictures; the Mirror sends Dr. Hoid in his impersonating act, and Angela Merston in an illustrated and spot light song, and from the Cosy comes Joe Arthur's Comedy Company, presenting Mandy Perlman in Hebrew and newsworthy impersonation, Charles Morrell, instrumentalist, and monologist and Joe Arthur with his talking dolls.

The prices for the tickets have been placed at twenty-five and fifty cents.

The price of just one bit of pasteboard, which will be returned as a souvenir, together with a program, may be the cause of saving a precious life. The starving and homeless are crying aloud for help in their dire extremity, and across the continent willing hands should join to pour a stream of dollars, which means life and hope to thousands of stricken ones.

Hens Vie for Biggest Egg

Oceanside Blade: A big contest is now on at Santa Ana, and Los Angeles and Pomona hens are also getting publicity for their efforts. Santa Ana claims a specimen of hen fruit measuring seven by nine inches but it weighs but three and three-quarters ounces, light for its size. Oceanside has an egg laid by a White Minorca pullet, eight months old, belonging to Miss Emma Sharp, which measured six and a quarter by seven inches and weighed four ounces. This averages up with the best reported so far, considering both size and weight, and the age of the pullet that laid it.

ART EXHIBIT TO BE WORTH WHILE

Will Warrant Trip Around
World to See Fine Pictures
at 'Frisco Fair

SAN FRANCISCO, April 1.—John E. D. Trask, chief of the department of fine arts of the Panama-Pacific International Exposition, on his recent return from the East said:

"The general scheme of the department is not to accept all of the pictures that are offered, but to arrange an exhibition which will be in its various branches thoroughly educational. With this end in view, I have visited a great number of museums and private collections, and with very satisfactory results.

"It is safe to say that when the exposition opens, there will be in the loan collection in the United States section, an aggregation of pictures worth traveling around the world to see. The prospects are also very bright for a very excellent chronological collection of American paintings."

POSTAL BALLOT SYSTEM FAVORED

California May Adopt Norway
Plan Providing Trainmen
Chance to Vote

SACRAMENTO, April 1.—The assembly committee on elections last night voted to recommend favorable action on Assemblyman Stuckenbruck's bill providing for the postal system in vogue in Norway and other European countries.

Under the railway trainmen, who are now practically disfranchised, will be able to cast their votes wherever they may be on election day, provided they can be identified. To facilitate identification the voter is given a duplicate of the record of his registration. He is allowed to cast his vote and a duplicate record is then sent to the place of registration for comparison with the original. If found to be a true copy, the vote is counted.

CITY TRUSTEES MEET IN ADJOURNED SESSION AND DISCUSS LOCAL MATTERS

Serene and brisk was the adjourned business meeting of the city trustees that was held last evening. The principal matter for consideration being the hurrying of the proposed sewer system on the south side of the city. All the members of the board were in attendance and Mayor Ly presided. City Attorney Heathman was also present. The space reserved for interested citizens was conspicuous by its lack of patrons.

A little further progress was made toward the placing of cement curbs and sidewalks on a number of streets where such work had previously been ordered, but the order not lived up to by all property owners. Week after week new streets have been added to this list since its preparation four weeks ago. The formal resolution was again read to the trustees.

A remonstrance was received last night from property owners on East Second street between French street and the Santa Fe railroad tracks protesting against ordering new curbs and sidewalks between the streets indicated on Second, inasmuch as there are good wooden improvements already in. The resolution and remonstrance was referred to the city attorney and street committee for investigation and report.

Pool Room License
C. Vincent was granted a renewal of the license for his poolroom at 209 West Fourth street.

Where Is the Fertilizer?
The question of procuring fertilizer for the city parks, brought up the question of what becomes of street sweepings and manure from the fire department stables and other city stables. The trustees individually and collectively confessed ignorance on the subject. It was decided to advertise for bids for all manure that the city may have for sale.

Removal of Trees
It developed that there is strong objection to the wholesale removal of trees from sidewalks, and a case in point was submitted where on First street a woman property owner protests against the proposed tearing up of her trees. Trustees Grubb and McPhee were deputized to give the matter investigation and report.

Southside Sewers
After two months of delay because of error in previous proceedings, the resolution directing the construction of a sewer system on the south side of the city was read for the second time and adopted. Bids

for this work will be advertised for in the Register, the bids to be opened April 21.

Cleaning Up Movement
Mr. McPhee revived interest in the cleaning up movement saying that some people do not seem to realize that they must obey the law in this direction. He said he knew of at least a dozen places that should be cleaned up, that there are premises that are a disgrace and menace to the city. At his suggestion, the street superintendent was directed to notify such people that they must clean up within ten days or be prosecuted. The city attorney was quoted as saying that the ordinance is valid and can be enforced.

After Delinquent Businesses
Another topic of interest taken up was in regard to alleged delinquent businesses that have not paid their city tax. He specified the Wells-Fargo company and the Standard Oil Company as being in the class that have neglected paying the business tax. City Clerk Burke corroborated this statement. The trustees directed the compilation of a list of all delinquents and the making of a formal demand upon them. The city marshal will be given a list of unpaid licenses and start on a tour of collection.

City Attorney Heathman advised that the famous Amendment No. 1 has made certain corporations exempt from certain forms of municipal taxation. He asserted that any incorporated business—all corporations—are exempt from municipal taxes.

Under this ruling Mayor Ely figured that half a dozen street fairs might incorporate and run around loose without even paying local licenses, to the detriment of the local business houses.

City Clerk Burke added to the general enlightenment with the announcement that the city of Orange collects a local tax from the Standard Oil Company.

Gas Investigation
Inquiry will be made at once as to the causes of the obnoxious gas odors on Main street at Fourth and at Buffalo.

Miscellaneous
The request of C. Leek for the removal of a telegraph pole from his driveway at 705 East Second street was granted.

At the request of Mr. Greenleaf the trustees ordered the lowering of pipe on Hannah street.

BARKER MAKES HIS DEBUT WITH SOX

"Tiny" Barker made his debut yesterday with the Chicago White Sox in an exhibition game at Yuma with a local team supplemented with three Chicago players. The Examiner correspondent says:

"Barker made his debut as a Sox pitcher and held the helpless children to one scratch hit and no runs in five innings. But that isn't any proof of his pitching ability. Manny Lowenstein could have done as well."

Nevertheless "Tiny" struck out six and only gave one base on balls in five innings.

WILSON TO VISIT THE PANAMA CANAL

President Will start for Isthmus at Close of Extra Session of Congress

WASHINGTON, April 1.—It has become known that President Wilson has made up his mind to take a trip to Panama immediately after the close of the special session of congress. President Wilson has hopes that the extra session will be ready to put up its shutters by August 11, and he will be ready then to board a warship and leave for the isthmus.

Mr. Wilson, it is said, feels under obligations to become acquainted with the details of this great work at first hand, as soon as possible and it is for this purpose that he will make the trip as soon as congress closes.

FOR NEW BANK MINNEAPOLIS, April 1.—The \$25,000 Lake Harriet state bank is in process of formation by business men identified with the Lake Harriet Commercial club, and it is proposed, after incorporation, that a meeting be called in April and plans made for a building for the bank at Forty-third street and Upton avenue S.

Pen Paralysis
Irate Tailor—Now, look here, Mr. Scribb, this has gone on long enough. I demand a check right now.

Impetuous Author—Sorry, Snip, old man, but my physician has ordered me to give up writing altogether for three months.—Tit-Bits.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant

balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nose closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—Just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Rowley Drug Co.

How to Increase Your Batting Average

Use the Cork Center ball. Records prove it. In the National and American Leagues in 1910, 27 batters hit ".300" and over; in 1911 (National) 57 batters did the trick, and in 1912, 62 batters. The Cork Center ball gives the batter an even break with the pitcher. It increases batting slightly, yet is not too lively.

Speaking of batting—have you ever tried the Spalding Autograph Model Bat? Made in all sizes and weights, after the style used by the particular batter whose autograph it bears. The Zimmerman model (Heinie Zimmerman, leading batter National League, 1912) is one of the best all-around models ever produced.

THE END OF A SPECULATOR

The death of "Deacon" White, who won and lost several fortunes on Wall street, brought out a few days ago the fact that although he once stood to win \$2,000,000 in corn, he died with only just enough money to pay his debts.

The case of Mr. White is somewhat unusual. Although he failed several times, he always paid his debts in full, though he could never get permanently ahead of the game.

The manufacturer who produces a useful article at a fair price can be satisfied that if his customers are honest and industrious the probabilities of trade assure them success. The speculative broker, on the other hand, must realize that the chances of the game are about five to one against the "poker" or "lamb." In the long run, the "kitty" must win. The broker must be always making new customers. The cordial handshake with which he greets the new face at the door must be much like the greeting of the undertaker to the consumptive.

"Deacon" White, no doubt, was not the only honest person in the brokerage business. There is plenty of room for men of high sense of honor who shall study earnings and expenses rather than the eights and quarters of the blackboards. They will persuade investors to pay down only real money for high class securities, lock them up, and read the stock market reports only at off moments.

Many men go into the brokerage business with the firm intentions of that kind. A great many of them come out about like the fellow in a mining camp who asked where he could find a faro layout. He was directed, but warned that the game was crooked. Shortly after he was found backing the tiger.

"Didn't I tell you the game was crooked?" whispered the man who directed him.

"Yes," replied the stranger, "but you also said it was the only game in town."

SAVE THE YOUNG TREES!

Anyone who lives in a city or in a naturally treeless region must be astounded to see how slowly sentiment in favor of encouraging woodland growth spreads in sections that have always had forests. This means a steadily increasing cost of lumber.

The farmer's boy starts out one of these mild days of early spring to see if his fences are standing. Following along the scraggly old brush fence that some shiftless farm hand laid he finds various gaps. A few strokes with his keen and shiny axe, and a hundred or two nice young oak, maple, or chestnut trees have been slaughtered. The fence is tight for one more year. But a future bank account has been sacrificed and he has helped make building material costly.

The writer once spent some time in a fairly well wooded district where there was a large factory operated by a wood burning engine. It might be supposed that the plant would have paid a liberal price to near-by lumbermen and farmers for wood from well matured trees. On the contrary, the wood burner was put in because the farmers of the neighborhood were willing to sacrifice young growth, about 15 to 25 years old, for a song. They called it "trash wood." The pittance of money that the mill paid them tided over their slovenly farming one more year. Meanwhile the whole section was impoverished of building material and taxable woodlands, while the only interest that profited was the factory corporation, which saved half its normal fuel cost.

Many people have the idea that the increased use of brick and cement is setting lumber aside as a building material. But if they will but cooperate with the Lord and cherish the young trees they will find that His stores of oak, chestnut, and pine will cost much less than man-made building compounds at \$5 a day for labor.

Editorial Edibles

President Wilson may insist upon the elimination of the old rule whereby presidential utterances were not directly credited to the Chief Executive, but the newspaper correspondents at the national capital need not lose heart—Colonel Bryan may still be quoted as "we have it upon the highest authority."

The prohibition musician doesn't necessarily pass up any bars.

Considering the long-accepted hand-

icap of his official position, Vice President Marshall seems to be keeping fairly in the national limelight.

This is the day the umpire shines

As he stands between the baseball lines,
And shouts aloud to the great and small:

"Batteries are brr brr brr brr—
Play ball!"

Being a candidate for office isn't altogether a political duty in all places

—In Los Angeles it seems to be an infectious disease.

If it is really news worth printing you will find it registered in the Register.

What is a miracle? asks an exchange. Well, we might suggest, as indicating the nature of the answer, that twenty-five years ago Bob Burdette was officiating as a humorist on the Burlington Hawkeye and both are still alive and hale and hearty.

Orange county will shortly be spending \$1,270,000 on the highway to good roads.

Frederick J. Haskin, a newspaper and magazine writer, is engaged in a series of articles on "The Modern Woman." He evidently takes it for granted that it requires a man to manage her.

Uncle Joe Cannon declares, in language picturesque, that he is "coming back," but Ex-Senator Aldrich continues to remain as silent as a Philadelphia clam.

Come now the saddest days of all,
Though in springtime finest plumes arrayed;

We can hear the tax collector's call:
"Is your poll tax paid?"

Soon residents of Bush and French streets may be heard reckoning time from: "Let's see, it was along about the time that this street was torn up."

It is said that the men of Northern China, as a rule, continue to wear their queues, whereas in Southern China, nearly every queue has been discarded. Perhaps the southern chinks haven't time to attend to both their peas and queues.

After reading some of the metropolitan newspaper accounts of baseball games, we really cannot be blamed for holding to the opinion that some people seem to enjoy life almost as much as if they had good sense.

ORANGE, April 1.—Leihy's restaurant last week passed under the management of G. M. Handley, who took over the interests of Mr. Leihy in the business. Mr. Leihy has retired to take up ranching.

DEFUNCT BANK WILL PAY
CLEVELAND, April 1.—Assignee Frank H. Ginn of the defunct Euclid Avenue Trust & Savings bank has \$41,994 saved which he will shortly distribute to the holders of the 4556 shares of stock outstanding as a dividend of 9 per cent.

COPY MINNESOTA SCHOOLS
ST. PAUL, April 1.—Rangers' schools operated on methods similar to those used in Minnesota by the state forestry department have been adopted by the Canadian Forestry association for instruction in methods of timber protection, according to the journal of the organization received here recently by Superintendent Cox.

START EXPERIMENTAL FARM
ST. LOUIS, Mo., April 1.—An 18-acre experiment farm, the sixth on the Iron Mountain railroad, has been located on the grounds of the Arcadia college at Arcadia, Mo. The Rev. John Adrian, head of the college, will be in charge of the farm, under general supervision of L. A. Markham of Little Rock, commissioner of agriculture of the Iron Mountain line.

LARGE WOOL CROP
ELLENBURG, Wash., April 1.—That the wool clip in Kittitas county will total from 750,000 to 1,000,000 pounds this spring is believed by Malcolm McLennan, a sheep owner.

CROP CONDITIONS IN MISSOURI
ST. LOUIS, April 1.—According to Missouri board of agriculture, favorable weather this winter put grain in excellent condition, with practically no winter killing of wheat. Grain has made fair growth. A little oat seeding has been done in the southern part of the state. Otherwise comparatively little spring farming is being carried on. More fall and winter plowing has been done than usual, which will give corn a good start.

TONS OF PRUNES GO EAST
CHICO, Cal., April 1.—Two hundred tons of fancy prunes that had been held for higher price than the jobbers offered, were recently sent to San Francisco from this city by E. T. Reynolds & Son, for eastern markets. There are 10 carloads in the train. This will complete the shipments for the last season. The price received for this last 200 tons was in excess of what the prune men anticipated.

TO DIVIDE LOAN SHARE
ST. PETERSBURG, Russia, April 1.—The Russia-Asiatic bank has given notice with regard to the sixpenny loan to China, that one-sixth share will be issued as to two-thirds in St. Petersburg, and as to one-third in Brussels.

BUILDING NEW LINES
FORTLAND, Ore., April 1.—The Portland Railway, Light & Power company has filed its acceptance of the franchise granted by the council, calling for the building of 18 miles of line. This means that the company binds itself to complete its Seventh-street line within 90 days, with a third rail.

RESOLUTION NO. 556

A Resolution of the Board of Trustees of the City of Santa Ana Ordering the Work of Sewers Within a District Within Said City.

The Board of Trustees of the City of Santa Ana does resolve and declare as follows:

That the public interest and convenience require the work herein described and the Board of Trustees of the City of Santa Ana, California, hereby orders the following street work to be done according to the plans and specifications adopted by said Board on the 17th day of February, 1913, to-wit:

To construct sewers in a connected system of sewers in a district within the corporate limits of the City of Santa Ana, hereinafter described, upon the following streets, to-wit:

The center line of Orange Ave., from the center line of McFadden St., to the center line of Myrtle St.

The center line of Cypress Ave., from the center line of McFadden St., to the center line of Myrtle St.

The center line of South Main St., from the center line of Fairview Ave., to the center line of Myrtle St.

The center line of South Sycamore St., from the center line of Fairview Ave., to 390 ft. North of West Canile St.

The center line of South Broadway, from the center line of Fairview Ave., to 390 ft. North of West Canile St.

The center line of South Elm St., from the center line of Fairview Ave., to 290 ft. North of West Canile St.

The center line of South Flower St., from the center line of Fairview Ave., to 390 ft. North of West Canile St., produced West.

The sewer on South Shelton St., to be laid 26 ft. West of the East line of South Bishop St., from the center of West Bishop St., to the center of Highland St.

The center line of West Bishop St., from 26 ft. West of the East line of South Shelton St., to 250 ft. West of South Flower St.

The center line of Highland St., from the center line of South Bishop St., to 250 ft. West of South Flower St.

The center line of Gibson St., from a point 26 ft. East of the West line of South Bishop St., to the center line of South Bishop St.

There shall be placed in position on the sewer line to be constructed at points indicated on the plans 361 6x4 Y's.

In addition to Y's above mentioned there shall be 45 service connections made to the sewers previously constructed by the City of Santa Ana, and at points indicated on the plans as follows:

One located at South Elm St., between Fairview Ave. and a point 1/2 mile North 25 ft. on Fairview Ave., between Shelton St. and South Main St., 11 on South Main St., between Fairview Ave. and McFadden St., and 2 on McFadden St., between South Main St. and Orange Ave.

These service connections shall be made of a joint of 4-inch vitrified soil-glazed sewer pipe, 18 in. diameter, and shall be in gree position over openings made in sewer mains securely cemented with a cement grout as used for making sewer pipe joints.

All of said work is within the district hereinafter described. Said sewers to be of vitrified soil-glazed sewer pipe, including manholes, flush tanks, Y branch connections, excavation and work required for said connected sewer system within said district, according to the plans and specifications for said sewers and work on file in the office of the City Engineer of the Santa Ana, and referred to as the particular description of said work.

And said Board of Trustees does hereby determine and declare that said proposed work and improvement is of more than local or ordinary benefit, and will affect and benefit the lands and district herein described, and that the entire cost and expense of said work and improvement shall be and is hereby made chargeable against and shall be assessed upon said lands and district, which district is within the City of Santa Ana, in the County of Orange, State of California, and is particularly bounded and described as follows, to-wit:

Commencing at the Northeast corner of Lot 1, Block 11, Walnut Grove Tract, Section 1, Tenth West 140 ft., thence Northwest to the center of Myrtle St., and Orange Ave., thence West along the center line of Myrtle St. to a point 180 ft. South of the center line of East line of South Main St., thence North 1/2 mile thence East along the South line of Palmer's Addition as shown on map recorded in Book 24 on page 37 of Miscellaneous Records of Los Angeles County, California, to the Southwest corner of said Palmer's Addition, thence West to a point on the North line of Lot 1, Plaza Ranch, 150 ft. West of the West line of South Bishop St., thence South parallel and 150 ft. West of the West line of South Bishop St., to the West line of Lot 2, Plaza Ranch, thence East 180 ft., thence South along the City limits to a point 180 ft. South of the center line of Fairview Ave., thence East parallel to Fairview Ave., to Lot 187 ft. West of the East line of Section 13, T. 5 S., R. 10 W., S. B. 6 & 7, thence South to a point 170 ft. South of the center line of McFadden St., produced West, thence East parallel to McFadden St., to a point 180 ft. East of the center line of Orange Ave., produced East, thence North 1/2 mile to the East line of Orange Ave., and 140 ft. East therefrom to the place of beginning, saving excepted by lower ground produced in the City limits, that the City reserves two loads therefrom.

Santa Ana, Cal., April 1st, 1913.
J. C. BURKE, City Clerk.

Notice is hereby given that sealed proposals will be received by the City Clerk of the City of Santa Ana up to the hour of 5 o'clock on April 2nd, 1913, for all of the manure produced at the City Stables, Fire Hall and Street Sweepings, two loads therefrom, that the City reserves two loads therefrom.

and Santa Ana High School District shall be omitted from assessment and the cost of the work in front of them shall be paid by the owners of the remaining lots and land in said sewer district.

All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California entitled "An Act to provide for work upon Streets, Lanes, Alleys, Courts, Places, and Sidewalks and for the construction of Sewers within Municipalities," approved March 18, 1885, and the several Acts amendatory thereof, or supplementary thereto; also in accordance with the plans and specifications made therefor by the City Engineer of said City of Santa Ana and adopted by said Board of Trustees as the plans and specifications according to which said work shall be done.

Said streets referred to are public streets of said City of Santa Ana, California.

The City Clerk of this Board of Trustees is hereby directed to publish this Resolution for two days in "The Santa Ana Daily Evening Register," a daily newspaper published and circulated in this City, and which is hereby designated for that purpose.

He is also directed to post conspicuously for five days near the chamber of this Board of Trustees Notice of said work with plans and specifications including sealed proposals for doing the work ordered, and to publish for two days a Notice of said work inviting sealed proposals or bids for doing the work, and referring to the plans and specifications posted and on file, the said publication to be in the said "Santa Ana Daily Evening Register," the daily newspaper hereby designated for that purpose. Both of said notices shall require a certified check or a bond, either, as prescribed by law, and for an amount not less than ten per cent. of the aggregate of the proposal.

The 21st day of April, 1913, is hereby designated and fixed as the day on which up to the hour of 5 o'clock p. m. the said proposals or bids shall be received, and the said notices shall so specify.

The above resolution was passed this 31st day of March, 1913, by the following vote, to-wit:

Ayes, Trustees, Alderman, McPhee, Greenleaf, Grubb and Eys.

Noes, Trustees, none.

FRANK EY, President of the Board of Trustees of the City of Santa Ana, Cal.

Approved this 31st day of March, 1913.

President of the Board of Trustees of the City of Santa Ana, Cal.

Attest: I hereby certify that the foregoing Resolution was passed and adopted by the Board of Trustees of the City of Santa Ana and signed and approved by the President at its meeting held on the 31st day of March, 1913.

(Seal)

J. C. BURKE, City Clerk and ex-officio clerk of the Board of Trustees of the City of Santa Ana, California.

P. E. EXTENSION TO BAY CITY ASSURED

Board of County Supervisors

Sell Franchise to the Railway Company

BIG IMPROVEMENTS ALREADY UNDER WAY

Pavilion to Be Erected That Will Cost About \$75,000 Upon Completion

The Pacific Electric railway extension into Bay City, which will afford a more direct line between Santa Ana and Long Beach was made a certainty this morning when the county supervisors in regular session sold a franchise to the railroad people that will permit of the construction of the line from Alamitos Bay to Bay City. The franchise brought \$100.

With the sale of the franchise this morning, the P. E. officials announced the immediate commencement of work on the extension, which will close a gap of about one mile between the present Alamitos terminal and Bay City. At the same time rush orders will be given on all the big improvements now under way or projected at the progressive oceanside town.

Santa Ana will get a more direct line to Long Beach under the new arrangement, for with the completion of the extension to Bay City the long round-about route from here via Watts can be dispensed with, and the trip made via Huntington Beach and Bay City.

P. A. Stanton, one of the mainstays of Bay City, was present at the meeting of the supervisors when the franchise was awarded, and he said that the construction of the railroad would be rushed as rapidly as possible.

Work of construction is to be begun at once, said Mr. Stanton, "and at the same time Bay City will be building a new \$75,000 pavilion, and a fine dance hall, and a large bathhouse containing 25 rooms. We are also ready to make other improvements that will give Orange county the distinction of having the finest ocean resort place on the Pacific Coast. We are not going to let expense stand in the way. Bay City is destined to be the most popular oceanside city."

We have added an exceptionally nice lot of new patterns of Body Brussels and Axminsters to our line of carpets. We would be pleased to show you this new line. Horton-Spurgeon Furniture Co.

Coughs and Consumption

Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by all druggists.—Advertisement.

Picnicked in Park

A senior picnic was held in Orange County Park. The trip was made in auto truck and the journey to and from the lovely park were as enjoyable as any other features of the trip. Picnic joys, a picnic dinner, a "weenie" bake in the evening and a final turn at refreshments at Taylors after the return from the park made the day complete.

Those enjoying the day were: Misses Alice Cranston, Edna McMurry, Frances McDonald, Helen Crose, Converse, Nan, Georgia Smith, Elizabeth Merigold, Eva Willard, Helen McKean, Dorothy Seecombe, Grace Downing, Hester Robinson; Messrs. Lloyd Avery, Ray Wright, Roy Phillips, Ralph Lowry, Herbert Covington, Verne Smith, Thomas Hughes, Johnny Criddle, Harold Scott, Walter Raymond, Lennox Covington, Selwyn Sharp, Miss McDonald and Mrs. Ratcliffe were chaperons for the picnickers.

Merry Freshmen

The recent high school freshman class party held in the high school assembly hall was a successful affair, progressive conversation and a "rack meet" being the principal features. Misses Gowdy, Gall and Norman chaperoned the party.

Pennants of blue and white, with floral decorations of ferns and plum blossoms, gave the hall a festive appearance and musical numbers lent an artistic flavor to the program of the evening. Those contributing selections were Miss Nellie Irvine and John Wehrly with piano solos, Keith Davis with a violin number, and a quartette of boys, Homer Holzgrafe, Frank Hill, Roy Criddle and Joe Irvine, giving a vocal selection. Ice cream, cake and punch were the refreshments served.

Celebrated Birthday

Stewart Smith yesterday reached his twentieth birthday and in honor of the event his mother, Mrs. R. R. Smith, gave a delightful dinner party for him at the Smith home, 1323 North Broadway. Mrs. Smith was assisted in serving by Miss Marguerite Tedford. The four-course dinner was served at 6:30 o'clock and the table was adorned with bouquets and pansies. The place cards bore clever designs significant of the names of the guests and each guest had to do some guessing before finding his or her plate. Covers were laid for Miss Shatto, Stewart's class teacher; Misses Beth Phillips, Isabel Jayne, Marjorie Magee, Frances McDonald, Winifred Huser, Malcolm Tedford, Will Warren, John Ball, Carson Smith and the honoree, Stewart Smith. The evening following was spent in music and games.

STEAL THE AUTO OF ORANGE P. M.

ORANGE, April 1.—Two bicycles for a big automobile was the exchange made by some unknown individuals who visited the garage of Postmaster F. T. Edwards last night while the P. M. and friends were enjoying a party at his residence. Edwards had a fine Hudson 32, but there is no sign of it hereabouts today. It is supposed the thieves rode to his garage on the bicycles which they ditched as soon as they found the machine.

BORROWINGS OF NEW YORK

NEW YORK, April 1.—Loan of \$7,000,000 has been made to the city by Interborough Rapid Transit company and New York railways from cash surpluses of the companies.

It is stated that loan had no particular significance, but that the city wanted the money, and the companies loaned it instead of placing it elsewhere. The loan is just for a short period.

BLACK CALLA LILY IS C. OF C. EXHIBIT

A black calla lily is the newest and most attractive novelty in the exhibit room of the Chamber of Commerce. Instead of the ideally white and majestic calla lily that is so well known, this specimen is a real, genuine black. The flower was presented by Mrs. Amelia Vanderlip, who obtained the original plant from Egypt. Not only is it a curiosity but it has a most peculiar odor.

TEN YEARS BEFORE DAYTON WILL RECOVER FROM FLOOD

DAYTON, April 1.—Major Rhoades, military aide to President Wilson, declared today that it would be ten years before Dayton would recover from the recent flood. He said it would require two weeks to make the first impression on the debris, and two months before the city would be comfortable and habitable. Tents for the homeless have been erected at the fair grounds.

SIXTY-EIGHT TOTAL OF INDIANA'S DEATHS

INDIANAPOLIS, April 1.—The government relief boat Scioto, in command of Lieut. Height, U. S. A., has towed a barge-load of provisions into Lawrenceburg. But few homes there were out of water. When the boat proceeded to Aurora, similar conditions were found, only 500 homes being beyond reach of the waters.

Gov. Ralston, one the appeal of Mr. Vernon citizens has ordered out a local company of militia to patrol the town. Leavenworth sent out a cry for help. New Harmony and Evansville reported increasing suffering from rising water, but the mayor of Vincennes telephoned that the water there was falling. It is believed no lives have been lost.

People of Southern Indiana heeded flood warnings quickly. Reports of fatalities, where the flood struck unexpectedly, are conflicting. Peru's list of twenty promises to shrink somewhat, but with those figures still standing Indiana's loss of life stands at sixty-eight.

Four more dead bodies were found today, making a total of seventy.

A. F. CALL, CITRUS GROWER, KILLED

Automobile Struck by Santa Fe Train—Prominent Man Killed Instantly

CORONA, April 1.—A. F. Call, a prominent citrus grower, independent packer and attorney, was instantly killed when his automobile was struck by a Santa Fe train here this morning.

Mr. Call, long identified with citrus growing in the Corona district, became widely known by his practical and persistent defense of the citrus interests of California, working in connection with his brother, Joseph H. Call.

FREDERICKS IS AT HOSPITAL AFTER SLIGHT OPERATION

LOS ANGELES, April 1.—District Attorney John D. Fredericks is recovering at the California hospital from a slight operation which he underwent last Friday. Last night his physician, Dr. W. W. Beckett, stated that the district attorney would not be able to return to his office for several days at least.

His condition is not regarded as at all serious, but for the success of the operation complete quiet has been temporarily prescribed.

STRIKE LARGE GAS WELL

SHARON, Pa., April 1.—Excitement prevails throughout this section over a gas well that has been struck near Butler, which produces upward of 20,000,000 feet of gas a day. Another well that will produce 10,000,000 feet of gas daily was also brought in last Saturday by the Waltham Oil company. Hundreds of acres are being leased, and a dozen new locations have been made in the field by different companies.

AMUSEMENTS

Della Clarke in "Introduce Me"

Della Clarke's new comedy, "Introduce Me," which is absolutely new in theme, bright and laughable throughout and wholesome in every moment, will be the offering at Grand Opera House for an engagement of two nights, commencing Friday, April 4. The story of "Introduce Me" has to do with the misfortunes and domestic infelicity of a young married couple, George Nichol, an unsuccessful playwright, has a wife who is more gifted and successful and who writes under the name of Francis Everett, absolutely unknown to her husband. She explains her income that keeps them in comfort and happiness by saying that her Aunt Hannah makes her a bountiful allowance.

The wife writes a book entitled "Susan," which creates something of a furore, and her girl chum, Edna Somers, who is an actress, prevails upon her to have the book dramatized that she might star in it. Meanwhile Aunt Hannah arrives and trouble begins right away. A manager of Mrs. Nichol's calls and is talking business with her on the sofa, when Aunt Hannah comes in and sees them making love, as she thinks. A little later Edna Somers arrives at the Nichol home, she is making arrangements with the husband about dramatizing the book, "Susan," when Aunt Hannah comes in again; she sees that the actress is smoking a cigarette and is making love to the husband. The aunt leaves the room and discovers a bottle of wine in the cooler, which she thinks is cider; she drinks it, becomes tipsy and tells the husband that a man was making love to his wife a few hours before, just as he was doing to the actress. She also states that she has only one cow, two pigs and two acres, and she can't send anybody anything. When the wife arrives her husband questions her integrity and she leaves him. They are living apart when the play is produced and it turns out to be a great success. The finale brings the husband and wife together again, when he is all but overcome with astonishment to know that it is his wife who wrote the book, "Susan."

GOING ON EXTENDED VISIT TO SWEDEN

Mr. and Mrs. C. F. Johnson, accompanied by Mrs. Johnson's sister, Mrs. E. Cox, and little daughter Alice, are leaving Santa Ana today on an extended trip to the former home of Mr. Johnson in Sweden. It was 26 years ago that Mr. Johnson came to Santa Ana from the old country. During these years he has been employed by the Griffith Lumber company, and it is through their courtesy that he takes this rest from duty.

Mr. Johnson's sister preceded him to California from Sweden and bought land near Orange for \$2 an acre. The party sails from New York a week from today and expects to be absent about three months.

CHINA WILL HAVE NEW CONSTITUTION

National Assemblymen Re-elected and Will Act; U. S. May Recognize Republic

WASHINGTON, April 1.—The entire membership of both houses of the first Chinese national assembly under republican auspices has been elected, according to official advices. The first meeting will be held April 3 at Peking. The Chinese congress will comprise about 800 members in the lower house and 300 in the upper chamber.

For the first meeting the members will exercise a double function, being, in the first place, practically delegates to a constitutional convention, or the body is charged with drafting a constitution and the establishment of a permanent form of government. Later that function is over, the members will resolve themselves into legislators.

The imminence of the meeting of this first assembly has brought to President Wilson's administration the necessity of deciding whether the Chinese republic is to be recognized immediately or whether the United States shall join other powers in extending recognition only after the Chinese assembly has met and acted on the proposed constitution. Secretary Bryan's recent utterances at Trenton and a long conference with the Chinese minister here last Saturday are regarded as indicating that the former policy would be advanced.

Pains in the Stomach

If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston, of Raleigh, N. C., who suffered with pain in the stomach and back, writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters was recommended and I improved from the first dose. I now feel like a new man. It will improve you, too. Only 50c and \$1.00. Recommended by all druggists. GERMANY PLANNING FOR WAR AVIATION

Will Spend \$32,500,000 For
Aerial Branch of Army and
Navy; Plans Are Startling

BERLIN, April 1.—Germany is about to spend the colossal sum of \$32,500,000 for military and naval aviation.

This with the increase of the war chest from \$30,000,000 to \$90,000,000 are startling features of the army increase bill and of the proposal for naval aviation contained in Saturday night's *Northern German Gazette*.

When the official military Gazette's special edition yesterday morning announced that \$19,750,000 of the \$261,250,000 voted for army increase would be devoted to army aeronautics it was hardly realized that before the day ended the government would promulgate plans calling for \$12,500,000 additional for the aerial branch of the navy.

For the navy two airship squadrons of five vessels each are to be formed with fifty new aeroplanes and a new pilot corps of 1,500 men. The army will disburse \$12,500,000 in the next four years for nine airships, fifty aeroplanes, garages, sheds, gas plants and repair shops.

According to the *Paris Temps*, Germany's increasing armaments are to be carried out with such dumbfounding rapidity as to give the impression that war is certain and near.

Meanwhile the London papers are contrasting Britain's poor aerial program and her failure to realize the menace to the island's security which comes with the conquest of the air.

WINDMILLS MAY RECLAIM GREAT MOJAVE DESERT

SAN BERNARDINO, April 1.—That the Mojave desert will become a new Holland—in windmill appearance—is the belief of George H. Year, who has just returned from an overland trip in many sections of the desert of San Bernardino county. He has been making a study of the problem of how homesteaders and others may secure cheap power for lifting water from wells on their lands. Water has been found on most parts of the desert.

Mr. Year believes that a windmill in use in Nevada and constructed on a biplane arrangement will solve the problem. There is always a breeze on the desert.

Mr. Year visited the Dale mining camp, now controlled by the Schwab interests and he predicts that within five years it will be the greatest camp in the history of the southwest. A tungsten mill is now being completed, and three 100-ton cyanide tanks are in operation.

REMAINS FOUND OF A PRIMITIVE RACE

Mammalian Bones Discovered
With Human Implements
In South Africa

LONDON, April 1.—A most interesting discovery has lately been made showing the existence of a primitive race of men in South Africa. Doctor Eroom of Grimston, whose archaeological and geological researches have made his name familiar to scientists in Europe and America, told of a specially interesting discovery recently made of a hot spring thirty miles north of Bloemfontein, in the course of operations designed to open up the eye of the spring. To do this it was necessary to tunnel into a sand hill, and in the course of the operations the workmen came upon a large quantity of mammalian bones associated with human implements and a quantity of charred wood.

The significance of the discovery was not realized by the first finders, but fortunately, a Dutch woman in the district suspected they had scientific value, and prevented the finds from being dispersed. Doctor Eroom went down and examined them. He found that the bones were chiefly those of hippopotami, eland; the huge extinct buffalo of South Africa, whose horns used to attain a span of twelve feet; the gigantic Cape horse long since extinct, which far exceeded the Clydesdale in size; an extinct variety of wild beaver; the wart hog, and a number of small buck, not yet identified.

8-HOUR DAY FOR MEN FAVORED BY 80,000

Assemblyman Circulates Petition; Legislative Adjournment
Date Undecided

CAPITOL, Sacramento, April 1.—Assemblyman Kingsley of Los Angeles, Socialist, stated today that he has secured more than 80,000 signatures to a petition for the passage of a universal eight-hour law for working citizens in California. Kingsley believes the signers will total 100,000 before the end of the week.

Adjournment Date Undecided
CAPITOL, Sacramento, April 1.—Decision as to the date of adjournment of the present session of the legislature has been deferred again, and, according to present plans, will be made at 11 o'clock Friday morning, when the matter will come up as a special order.

In the course of a heated debate over a motion to postpone the vote to Monday, it developed that some of the members who were most strongly in favor of April 26 at noon as the adjournment hour, are now doubtful whether the work of the legislature can be completed by that time.

Senator Boynton, president pro tem of the Senate, stated that while he personally had no doubt that all important matters could be disposed of by April 26, he would prefer to have an opportunity to note what work is accomplished this week before registering a final vote. Other senators agreed, and the day for final decision was pushed farther ahead.

NOTICE OF SALE UNDER DEED OF TRUST

Whereas, The Morton Dairy Company, a corporation, did, on the 6th day of November, 1911, execute and deliver a certain deed of trust to the Abstract and Title Guaranty Company, a corporation, with its principal place of business at Santa Ana, California, as trustee for the benefit and security for the payment of certain promissory notes in favor of Santa Ana Jersey Farm, a corporation, which deed of trust was recorded in the office of the County Recorder of the County of Orange, State of California, on the 16th day of November, 1911, in Book 202, page 553 of Deeds, Records of said Orange County.

And Whereas, The notes secured by said deed of trust have been duly assigned by the Santa Ana Jersey Farm to C. C. Ridgway and E. W. Ridgway.

And Whereas, default has been made by the said Morton Dairy Company in the payment of the principal and interest due on the promissory notes secured by the said deed of trust.

Whereas, the said C. C. Ridgway and E. W. Ridgway have declared said notes to be in default and have demanded of the said Abstract and Title Guaranty Company that it sell the premises in said trust deed described, or so much thereof as may be necessary, in order to accomplish the object of said trust deed, and legal notice as provided for in the terms of the said trust deed.

NX, therefore, pursuant to said demand of said C. C. Ridgway and E. W. Ridgway and in accordance with the terms and under the authority of said trust deed, the Abstract and Title Guaranty Company as such Trustee does hereby give notice that on Wednesday, May 14th, 1913, at 10:00 o'clock a. m. of said day, at the south door of the Courthouse in said Orange County, California, it will sell at public auction, for cash in gold coin of the United States, all of that certain property in said trust deed and in this notice hereinafter described or such parts thereof as may be necessary to accomplish the objects of said trust deed, and at said sale the holders of said notes, their agents, assigns, or assigns, may bid and purchase. And out of the proceeds of said sale the said Abstract and Title Guaranty Company will deduct the expenses of this trust, including the compensation of said Trustee and counsel fees, as in said trust deed provided, together with all money due to said C. C. Ridgway and E. W. Ridgway, their heirs or assigns, under the terms and provisions of said trust deed, and the remainder, if any, to the order of the said Morton Dairy Company, its successors or assigns.

The property in said trust deed described and notice of sale of which is hereby given, is described as follows, to-wit: In the City of Santa Ana, County of Orange, State of California, and described as commencing in the center line of First street at the common corner of Sections Ten (10), Eleven (11), Fourteen (14), and Fifteen (15), Township Five (5) South, Range Ten (10) West, S. E. B. & M., and running thence east along the center line of First street 1095 feet, more or less, to the line of the land conveyed by D. J. Carpenter and wife to the City of Santa Ana, by deed recorded in Book 25, page 142 of Deeds, Records of Orange County, California; thence South along the West line of said land 1222 feet, more or less, to the South line of Lot One (1) of the Sepulveda Tract, as shown on a map recorded in Book 21, page 194 of Deeds, Records of Los Angeles County, California; thence West along said line 1698 feet, more or less, to a line between Sections 14 and 15, Township Five (5) South, Range Ten (10) West, S. E. B. & M., thence North along said line 1222 feet, more or less, to the place of beginning; containing 23.22 acres, more or less, reserving therefrom the North 25 feet of First street; also the West 25 feet for road purposes.

Also lots 7, 8, 9, 10, 11, and 12 of the Plaza Rancho, containing 60.33 acres, as per map thereof recorded in Book 2, page 12 of Miscellaneous Records of Orange County, California, including a right of way for constructing and maintaining a pipe line over a certain strip lying between the North line of Lots 7 and 8 and above described, and the South line of the sewer pipe of the City of Santa Ana, as provided in Book 2, page 12 of said City to J. T. Raitt and D. H. Thomas and the Santa Ana Jersey Farm, respectively, as recorded in Book 138, page 34 and Book 139, page 23 of Deeds, Records of Orange County, California.

Also commencing at a point in the center of First street in the City of Santa Ana, 1942 feet West from the common corner to Sections 11 and 12, Township 5 South, Range 10 West, S. E. B. & M., running thence South 1329 feet, more or less, to the South line of Lot One (1) of the Sepulveda Tract, as per map thereof recorded in Book 21, page 194 of Deeds, Records of Los Angeles County, California, running thence West along said South line 424 feet, more or less, to the East line of Artesia street; thence North along said East line 1220 feet, more or less, to the center of First street; thence East 424 feet to the point of beginning, containing 12.54 acres, more or less, reserving the North 25 feet for street purposes and the South 8 feet wide of the City of Santa Ana for sewer purposes.

Also commencing in the center line of First street in the City of Santa Ana, 1942 feet West from the common corner of Sections 11, 12, 13 and 14, Township 5 South, Range 10 West, S. E. B. & M., point being 28.18 feet West of the Northwest corner of land conveyed to Charles A. Leighton by deed recorded in Book 22, page 28 of Deeds, Records of Los Angeles County, California, running thence South parallel with the West line of said Leighton's land 1220 feet, more or less, to the South line of Lot One (1) of the Sepulveda Tract, as per map thereof recorded in Book 21, page 194 of Deeds, Records of Los Angeles County, California; thence West 10,742 feet along said South line; thence North 1220 feet to the center line of First street; thence East 424 feet to the point of beginning, containing Thirty-one (31) acres, more or less, reserving therefrom 25 feet wide of the North side and a strip 25 feet wide off the East side for street purposes and a strip 25 feet wide off the South side conveyed to the City of Santa Ana; with the appurtenances, including water, water rights, pipes and ditches, and all building and improvements thereon.

Savings Bank Deposits

VS
Investments

"How can I invest \$1200.00 now in a savings-bank drawing Four Per Cent Interest, at practically no more risk to the principal than at present, but paying a better rate?"

Before the writer of the above withdraws the money to invest in securities, he should consider the matter very carefully. If the savings bank is a sound institution the money on deposit is already one of the very best investments that human ingenuity has yet devised for a small fund.

The bank is paying 4 per cent compound interest, but a higher rate is wanted. Four per cent in a savings bank may seem a low rate of interest; but when the safety of the investment is considered and the interest is compared with the yield of a high-grade security, it is not disproportionate.

A savings bank depositor, moreover, must not lose sight of the fact that he has something besides his interest.

He has money and it is intact in his bank.

When he buys a security he parts with the money, and he cannot reclaim it except by selling the security. When he loans the money on mortgage his funds are not available for several years.

THE MARKETS

The market was well supplied with sparagus yesterday, the prices were generally a little lower. Several large shipments from the north came in and more were expected. Northern strawberry rhubarb continues in good supply at about the same prices. Some local winter crimson was selling as low as \$1 a box. Artichokes no rather plentiful, around 65 to 75 dozen in many instances. Hot house mushrooms were received and sold at \$2.75 a basket. The field-grown stock is rather scarce. A very good supply of cucumbers were in evidence at about the usual range of prices. A car or so of Florida tomatoes were received and sold at \$2.75 to \$3 a crate. Dealers believe it will be rather difficult to obtain any more from this section, and they say they understand a portion of the crop has been damaged by fire. A shipment by water is expected from Mexico, however. The supply of tomatoes was fair yesterday. Potatoes and beans continue about the same. The onion market shows firmness. Butter receipts were heavy, but did not affect the price, which may fall off in a day or two, however. Receipts were heavy, but did not affect the price, which may fall off in a day or two, however. Receipts were heavy, but did not affect the price, which may fall off in a day or two, however.

Some strawberries from Strawberry Park were received and quoted at 25 cents a basket. Loquats were in evidence at about the same price. Receipts of apples were heavy, several good shipments came in from Oregon. Bananas are steady at about 4 cents a pound in most cases. Reported receipts were: Eggs, 813 2/3; butter, 70,321 pounds; cheese, 23 pounds; potatoes, 5400 sacks; apples, 6040 boxes. EGGS—Ranch, candied, 22 1/2 @ 23 1/2; ranch, case count, buying price, 22 1/2; Petaluma-Santa Rosa extra, 22 1/2; northern, case count, 16 @ 19. BUTTER—Buying prices: Creamery extras, 37 1/2 per lb.; creamery, 32 1/2 @ 34 1/2. Prices to the trade about 3 cents above these quotations.

Planting

We are now in the midst of the tree planting for this season in the Yucaipa Valley. Forty thousand trees are being set. Rome Beauty, Winesaps, Delicious, Arkansas Blacks, and Winter Banana, are the principal varieties being set. These are the varieties that have been well tried out in the valley and produced such remarkable results. Pears and cherries are also being set, both of which do remarkably well in Yucalpa.

The big water developments and irrigating systems are nearing completion. And now for the surface crops. Hundreds of acres of vegetables are growing.

More tomato growers are wanted. The canner is ready to contract for 50 acres more. The Yucalpa tomatoes, large, smooth and solid, are especially valuable for late shipment.

Remember there is no other land proposition in Southern California equal to the Yucalpa Valley when it comes to soil, irrigation and domestic water, modern improvements and profitable results. Not way up north. Not out on the desert. No stones, no cactus, no brush. The whole valley a garden spot. No fogs. No destructive winds. No late frosts. No desert heat, pleasant all winter. Pine schools, churches, newspaper, library, hotel, stores, woman's club, growers' club, park, electric light, automobile service. Rural life delivery and all things that make life attractive in this beautiful valley.

And soon this fine opportunity will be gone forever for the land is selling fast. The price is reasonable, the terms so easy, six per cent interest, two years between payments. We go up every week. One day trip to see it all. Only 64 miles away. Go with us and see for yourself. Real lands and Yucalpa Land Company.

AT THE COURTHOUSE

VALUABLE LAND
AT PLACENTIA
IN DISPUTE

More than one hundred thousand dollars is involved in the des Granges family differences that have led to dispute over the title and rights of three children in eighty acres of fine Placentia lands, and which have resulted in an appeal to the superior court to bring about settlement if not total satisfaction.

Judge Curtis D. Wilbur, the noted juvenile jurist of Los Angeles, is presiding in the case, while Russ Avery, one of the well known Progressive party leaders in the same city is among the array of attorneys. The plaintiff, Mrs. Josephine des Granges is represented by Attorneys Meserve & Meserve, of Los Angeles; while the defendants, three children of the plaintiff, are represented by Attorneys Avery and French, and Williams & Rutan.

The suit is to quiet title to the land which was originally owned by Mrs. des Granges' husband, who bequeathed her a life interest in it, and arranged for its distribution among four children upon the death of his wife. The division of the land into four 20-acre tracts was made, it is claimed, with the understanding that the deeds were not to be recorded until Mrs. des Granges died, but it seems that they have appeared on record.

Suit to Quiet Title
Clara B. Turin has instituted suit against Jacob Stern et al to quiet title to certain property located in Rancho Las Bolsas.

Sugar Company Appeals
An appeal has been taken by the Southern California Sugar Company from the \$1000 verdict rendered in the superior court in favor of John L. Trembly, a youth who lost a portion of his hand while employed in the sugar factory. Trembly was awarded \$1000 damages by a jury after trial before Judge West, March 11 last.

Guardianship Petition
A petition praying for the appointment of James R. Sherer as guardian for George O. William J., Theodore C., and Margarita J. A. Hill was filed with the county clerk this morning.

The "Boys" are coming.

GRAND FREE MATINEE

EIGHT MISSING
FROM WRECKED
SCHOONER

All Night Search Fails to Reveal
Traces of Crew and Captain
of "John D. Spreckles"

SAN FRANCISCO, April 1.—Although search was made throughout the night, no trace of the captain or seven sailors of the three-masted fishing schooner John D. Spreckles, found yesterday bottom up off Point Reyes, with evidences of having been in a collision. Life savers at Point Reyes are searching for the bodies of the missing men, probably dead. The Spreckles is a codfisher and was homeward bound from Unga, Alaska. She may have had cannery hands aboard besides the crew. The schooner is owned by the Alaska Codfish Company and is of 267 tons burden.

COUNTY SCHOOL
EXPENSES REACH
HIGHWATER MARK

County Auditor Lester finds that the county school demands during the past month aggregated almost double the amount in February. For March the total, according to the auditor's figures, was \$98,451.44 while in February the total was \$51,370. The increase is attributed principally to the expense incident to the erection of the new Santa Ana polytechnic school. In addition to these figures, the supervisors last month approved demands that aggregated \$34,646.45. This money was chiefly for salaries.

Kiss Tire Troubles Good Bye

ALWAYS-AIR

RIDE ON AIR :: ENDS TIRE CARE

Here at last is the solution of the tire trouble bugbear of motoring. Good-bye to punctures. No more delays, no more disappointments, no dirty work and

50% Actually Saved in Tire Expense

IT TAKES LITTLE TALK AND ARGUMENT TO CONVINCE THE MOST SKEPTICAL THAT ALWAYS-AIR IS THE MOST LOGICAL, COMMON SENSE IMPROVEMENT IN THE AUTOMOBILE FIELD TODAY.

ALWAYS-AIR IS NOT A TIRE FILLER; you ride on the regular air pressure. It contains no chemicals or oil injurious to rubber, is not affected by heat, cold, water or air.

ALWAYS-AIR will double the guaranteed mileage of your casings. It absolutely does away with 85 per cent of your tire repair bills; thus: ALWAYS AIR will pay for itself in a few months. It can be used again and again and never wears out.

It is only a question of you, MR. AUTOMOBILIST, placing yourself in the position of those of your friends who have ended tire troubles.

Figure out how desirable this comfort-giving discovery would be to you.

PLACENTIA TO HAVE
PERMANENT EXHIBIT

Appreciating the advantages to be derived by having an attractive exhibit of the resources and products of Placentia, the enterprising and progressive business men of that thriving city have requested and have been granted permission to maintain a permanent exhibit at the exhibit rooms of the Santa Ana Chamber of Commerce.

Secretary Metzgar was today arranging for a large table and the best available location for the same in the big room that is daily visited by many tourists. J. W. Newell of Placentia, has the honor of making the first contribution to the exhibit. He donated a box of fine oranges.

CURRENCY BILLS
FOR EXTRA SESSION

Senators Owens and Glass
Work on Preferred Measures;
Half Dozen Bills Ready

WASHINGTON, April 1.—Currency reform will come informally to the attention of congress soon after it assembles next week, notwithstanding the efforts of President Wilson and the Democratic party leaders of the two houses to focus attention upon the tariff in the early weeks of the extra session.

At least a half dozen currency bills will be ready for introduction when congress meets, it is believed, and their appearance in the House and Senate will mark the beginning of a general discussion of the financial reform.

Senator Owen of Oklahoma and Representative Glass of Virginia are working upon measures which probably will be submitted first to the banking committee of the respective house and made the basis of a committee study.

Senator Owen practically has completed a bill representing his views and it will be submitted to the Senate committee on banking and currency. He has not made public the details of his bill, nor indicated the extent to which it may provide a central agency under governmental control.
